

40 years of experience.

SOGAR Hydraulics is a trusted name in the installation, sales, and servicing of hydraulic systems. We provide expert sales and repair services for hydraulic components, from small adapters to complete power packs, and we support a wide range of industries across Lebanon.

We are the official representatives of Danfoss Power Solutions (Denmark) and Rexroth Bosch Group (Germany) in Lebanon, and we aim to be your reliable, all-in-one hydraulic partner, delivering fast diagnostics, professional repairs, and dependable service. Every repair we carry out is pressure tested to ensure performance and safety. We also operate a fully equipped mobile workshop, bringing our expertise directly to your site.

Services

Our service department repairs and maintains pumps, cylinders and complete hydraulic systems. We test components and check the full system, including startup, synchronization and operation, before equipment goes back to you. Work happens at your premises or in our fully equipped workshop. We are open six days a week.

Maintenance contracts

Scheduled maintenance or one-off service, whichever suits your operation.

On-site diagnostics

Our technicians come to you to find faults and support your systems.

Mobile hose van

Fast-response hose service that comes to your site.

Welding and machining

In-house welding and precision machining in our workshop.

Why SOGAR Hydraulics

- **Fast response times and quick delivery.** Fast response times keep delivery periods short, minimizing downtime and keeping your operations running smoothly.
- **Technically matured solutions through experience.** Decades of industry experience, applied to your specific hydraulic needs.
- **Absolute reliability in deadlines and quality.** Rigorous quality controls, and delivery on time.
- **Skilled specialists in manufacturing and assembly.** Hands-on experience and attention to detail on every component and system.
